

SHVET GHARE

Mumbai, Maharashtra • +91-7249832504 • shvetgharework@gmail.com • linkedin.com/in/shvetghare1234 • github.com/ShvetghareWork • [Portfolio](#)

SUMMARY

Full-Stack Software Engineer with a 9.39 SGPA (Top 5–10%) at Universal College of Engineering, Mumbai, and 4 production-grade projects spanning distributed systems, AI-integrated fintech, and accessible EdTech. Proficient in Java Spring Boot, MERN stack, Python/FastAPI, Apache Kafka, Redis, PostgreSQL, Docker, and AWS. Proven ability to architect high-concurrency backends, design event-driven microservices, and ship AI-powered products end-to-end.

SKILLS

Languages: JavaScript, Java, Python, C

Frameworks & Libraries: Node.js, React.js, Next.js, Express.js, Spring Boot.

Databases & Messaging: MongoDB, PostgreSQL, Redis, Apache Kafka

Cloud & DevOps: AWS (EC2, S3, IAM, Route 53), Docker, Google Cloud Storage, GitHub Actions, Prometheus, Grafana, Zipkin

APIs & Auth: RESTful API Design, JWT, Google OAuth (Passport.js), HMAC-SHA256, Razorpay

Tools: Git, GitHub, Postman, Maven, Lua scripting

EXPERIENCE

Full-Stack Developer & Project Lead [Hackathon] — EduAble | [\[Live\]](#) [\[GitHub\]](#)

Feb 2026 – Present

Accessibility-First LMS · Next.js, Node.js, MongoDB, FFmpeg, n8n, Google Cloud Storage

- Reduced caption setup time by approximately 80% by engineering an automated pipeline — n8n webhooks + FFmpeg — that extracts audio and generates SRT subtitle files on every upload, eliminating all manual captioning effort.
- Designed and deployed a full-stack LMS serving students across 3 disability categories (visual, hearing, cognitive), featuring accessible video streaming, AI-generated transcripts, and JWT-secured authentication — reducing content accessibility barriers for 100+ users.
- Awarded 1st Place at CODE AUTOMATA VER. 2.0 (CSMIT Panel) among 40+ competing teams, recognized for technical innovation in AI-driven accessibility and real-world social impact.

PROJECTS

Ticketizer — Distributed High-Concurrency Booking Engine | [\[GitHub\]](#)

Jun 2026 – Present

Java 21, Spring Boot, Next.js 15, Redis, Apache Kafka, PostgreSQL

- Architected a distributed seating reservation engine by decoupling volatile state from persistent storage; leveraged Redis with atomic Lua scripts to enforce single-threaded locking, achieving zero-overselling across 10,000+ simultaneous booking requests.
- Engineered an asynchronous Kafka event pipeline absorbing burst write spikes of 10,000+ events/second, maintaining 100% PostgreSQL uptime under peak load; secured all payment webhooks with HMAC-SHA256 cryptographic validation, eliminating replay attack vectors.

Atlas — Inventory & Supply Chain Microservices Platform | [\[GitHub\]](#)

Apr 2026 – May 2026

Java, Spring Boot, Apache Kafka, PostgreSQL, Docker, Zipkin, Prometheus, Grafana, GitHub Actions

- Engineered 5 microservices (API Gateway, Identity, Inventory, Order, AI Optimizer) implementing the SAGA pattern, Kafka multi-broker high availability, and Optimistic Locking for distributed transaction consistency.
- Established end-to-end observability across all 5 services — distributed tracing via Zipkin, metrics via Prometheus/Grafana — cutting mean debug time; automated deployments via GitHub Actions CI/CD with Docker containerization; authored a research paper documenting SAGA-pattern architecture decisions.

NutriSnap — AI-Integrated Health & Fitness Ecosystem | [\[Live\]](#) [\[GitHub\]](#)

Feb 2026

Next.js 15, Node.js, Express.js, MongoDB, Socket.io, Google Gemini, Razorpay, Cloudinary

- Built an AI Nutritionist feature powered by Google Gemini enabling members to snap meal photos and receive instant nutritional breakdowns; integrated real-time coach-client activity tracking via Socket.io, reducing manual progress logging effort for 100+ users.
- Engineered a full-stack platform with a Next.js 15 frontend and Node.js/Express backend, integrating Razorpay for subscription payments, Cloudinary for media storage, and NextAuth.js for enterprise-grade authentication; architected with a clean client/server monorepo structure.

EDUCATION

Bachelor of Engineering — Computer Engineering

Aug 2023 – Present

Universal College of Engineering, Mumbai

- SGPA: 9.39 / 10.0 — Top 5–10% of cohort

CERTIFICATIONS

AWS Certified Solutions Architect – Associate (Udemy) • Backend Bootcamp • Ultimate React Course • Intro to Docker • MongoDB Basics • AWS Cloud Practitioner Essentials

LEADERSHIP & AWARDS

- Hackathon Winner — CODE AUTOMATA VER. 2.0, CSMIT Panel (1st Place, 50+ teams)
- Cultural Secretary — College Student Council, Universal College of Engineering
- 150+ LeetCode problems across multiple Data Structures covering LinkedList, Arrays, Trees, etc.
- Languages: English, Marathi, Hindi, German (Learning)
